

LET YOUR CUSTOMERS PAY ONLINE AND HELP YOUR BUSINESS GROW.

These days everyone expects to be able to pay online. With more and more shoppers using the internet every day, taking payments on your website is one of the best ways to help find new customers and grow your business

Accept all major payment methods including Mastercard, Visa and even PayPal

Never miss a sale: Be open 24 hours a day without losing sleep

Take your business with you: Our online portal lets you log-in wherever there's a secure internet connection

Sell to more customers, locally, nationally and internationally

Reach more customers

Our online payment gateway lets you take secure payments through your website and help find more customers. Rich with features, it has everything you need to take credit and debit card payments online simply and securely. So you can let your customers pay easily and conveniently and help your business grow.

All types of businesses can sell online. From retailers to hotels, education and services, we provide simple tools to take payments remotely: through your website, over the phone or by email. A florist delivering flowers locally, a specialist shoe store selling across Europe, a car service or driving school taking bookings, a restaurant delivering takeaway – whatever your business, our online payment gateway gives your customers an easy way to pay.

Online payments for all kinds of business

Features

24 hour customer support lines.

Our customers service lines are open 24/7 and our highly-trained technical support team are ready to help you five days a week.

Integrates with over 100 partners.

Shopping carts, content management systems, software and website partners help you trade online quickly and easily, whichever technology you choose.

Secure and compliant.

Use our secure hosted payment pages and let Worldpay take care of sensitive transaction data to help your transactions meet PCI DSS compliance standards.

Administration and insight.

Your Worldpay online portal, Business Manager, lets you see all your transactions in real-time. Download reports, integrate with accounting software and manage sales data as well your daily transactions and refunds.

Powerful anti-fraud service.

As well as the standard security settings, we can provide a series of automated checks designed to help identify fraud risk. This is an optional service for an additional charge.

Trade , locally, nationally and internationally.

You can take payment in Euros, GBP or USD or another currency of your choice, with Worldpay hosted payment pages in 23 languages.

Take payment over the phone.

Process payments over the phone safely and securely using our Virtual Terminal feature.

Take payment by email.

Take orders by phone, website or email, letting customers pay easily and conveniently using a payment link in an email, quote, or e-invoice.

Take recurring payments.

Let customers subscribe, donate, or pay for memberships with our recurring payments feature, FuturePay. (Optional)
